PROFESSIONAL SUMMARY

Full-stack WordPress developer with 5+ years of experience building and maintaining websites, landing pages, and custom web tools for marketing-driven businesses in the US, Canada, and Australia. Advanced experience with Elementor (custom templates, reusable sections) plus Divi and Bricks Builder. Comfortable translating design concepts and brand direction into polished, responsive pages, building custom WordPress plugins and interactive tools (forms, calculators), and keeping sites fast, secure, and properly maintained. Writes PHP, HTML, CSS, and JavaScript directly rather than relying solely on page builders.

CORE SKILLS

- WordPress development — custom themes, templates, and plugin development (PHP, JS, HTML, CSS)
- Page builders: Elementor (advanced/custom), Divi, Bricks Builder
- Landing page & lead-generation page development, contact forms, and conversion-focused layouts
- Custom interactive tools — guided forms, calculators, and estimators
- On-page SEO, page speed optimization, Core Web Vitals
- WordPress security, maintenance, backups, staging, and migrations (Wordfence and similar tools)
- CRM, email, and third-party platform integrations, incl. GoHighLevel (GHL)
- Basic Google Analytics / Tag Manager setup; Meta Pixel/CAPI implementation
- Automation: Zapier / Make for lead routing and workflow integrations
